INVESTMENT DIRECTION FORM

Complete this section for CUSTOM ALLOCATIONS
Only one of the choices below may be selected or the following instructions will be void. Facsimiles are not accepted.

( ) Allocation Change ONLY. Please change my investment allocation percentages on file as directed below. All prior allocation percentages are hereby canceled. This change will affect all future deposits to your account. This designation of investment allocations shall remain in effect until changed by you in writing or through the web site or voice response system. Please note that this will not initiate any transfer of your current funds. It will only establish investment allocations for future deposits into your account.

( ) Allocation Change AND Funds Transfer. Please change the allocation percentages on file and transfer all funds (but see the Important Note below) to equal the following allocation percentages. All prior allocation percentages are hereby canceled. This designation of investment allocations shall remain in effect until changed by you in writing or through the web site or voice response system. Please note that this will initiate a transfer of your funds. It will realign the investments in your account to match the allocations designated below. This change will also affect all future deposits to your account.

Important Notes:
Pending Activity: Instructions specified on this form will not be applied to pending activity (deposits, transfer instructions already in process). Additional instructions must be submitted for any such activity. Pending activity represents deposits received and entered but not posted as of the date this 'Investment Direction Form' is entered and effective within our system. It is important that you review pending activity and verify the application of investment direction to such activity.
Effective Date: Forms received in "good order" are processed within three business days of receipt. **Please note that utilizing the toll-free voice response system or the participant website expedites the processing of changes in investment direction.**
